January 2005

Natatorium Design Issues

Last month, we had a small, but festive turnout for the tour of the Altura Office Building. The tour lasted approximately 30 minutes. It was a brief, but informative tour. Thanks goes out to Bob Skarsgard for being our guide. After the tour, the group gathered at Louie's for joyful spirits.

This month's meeting will be an in-depth presentation on indoor pool HVAC. The speaker will be Hurd Anstadt, National Sales Manager for Pool-Pak International. Hurd has over 20 years experience in the HVAC field. He was a manufacturer's representative in Central Pennsylvania from 1985 to 2003. In 2003, he joined PoolPak International.

The presentation will consist of three parts. Part one will cover pool water chemistry for indoor pools. Part two will describe the design and function of indoor pool compressorized dehumidification equipment. Part three will describe air distribution and construction concerns for indoor pools.

Please RSVP by January 14th to Jason Moorhead at 505-821-2563 or email jason@mechrep.com. Email is preferred.
